Discover the “smaller” side of Hong Kong

Hong Kong is a city that is great for groups of **5 - 30 people** if you want to create a programme, no matter 2 days or 5, that will WOW them in every way

Sporting one of the world’s greatest harbours, Hong Kong is spectacular from the Water. But it is just as breathtaking from the air. With 15 minute rides around Hong Kong, 3-4 persons per ride, every passenger will be awestruck

HELICOPTER FLIGHTS

Hong Kong wasn’t always a modern bustling harbor. Once it was full of “Tall Ships”, pirates and merchant ships plied the waters around its islands. So why not learn to sail on a replica of The Bounty

SAIL A TALL SHIP

Kai Tak International Airport, Hong Kong’s main international terminal was one of the most difficult and exciting landings in the world. You felt as though you were landing on the roofs of the residents of the Kowloon Peninsula. So landing on this airport in a flight simulator is an exciting and exhilarating ride
